■ Scientific Program

The first session will commence at 13:00 in the afternoon of Thursday, January 24, and the last session of the workshop will end around 15:20 on Saturday, January 26. Parallel sessions (detector/physics) are scheduled in the afternoon of January 25th and in the morning of 26th. Several discussion times are allocated in the program.

Please see <http://superb.kek.jp/bnm2008/program.html> for details.

■ Presentations

Presentations are beamer only! A PC is available in each room for presentation. We support PDF and MS PowerPoint (up to the 2003 edition) formats.

We ask all the speakers to send the presentation files to bnm2008@hepl.phys.nagoya-u.ac.jp before the workshop. Please note that no personal laptops are allowed for presentation.

As you see in the program, we have several 20-30 min. discussion times. Please keep your talk time so that we can have enough time for the discussions.

■ Internet

Please note that internet access is very limited in the hotel. The hotel provides a WLAN spot near the conference room, but we cannot guarantee the speed and stability. No wireless LAN will be available in the conference room nor in guest rooms.

■ Travel

For the travel to the Atami station, please follow the instruction given in <http://superb.kek.jp/bnm2008/access.html>.

From the Atami station to the New Fujiya Hotel; the hotel is about 1km from the station. For those arriving on January 24, there will be a free shuttle bus service from the Atami station to the hotel with the following schedule:

The bus leaves the Atami station every 30 minutes, 11:00, 11:30, 12:00, 12:30.

You can take also taxi at the cost of about 650 yen. You can show the following to the driver.
