

Report from the Interim Steering Committee meeting

Peter Križan

Activities at KEK and in Japan: report by A. Suzuki

Roadmap committee report: very positive (but not official yet)

Restricted ECFA Committee visit on June 29: very good
discussion.

How to join?

More institutions are considering to join, we are looking for more, giving seminars → looks promising!

How to join: contact the Steering Committee

→ send a letter to the chair (=me) expressing the interest, what your group would like to work on, what it would be likely able to contribute, and estimate manpower

Steering Committee would then consider the application.

Towards the new collaboration

First step (in autumn): form the Institutional Board (IB) with representatives from all groups that have submitted the expression of interest.

Next Proto-collaboration meeting (Dec 10-11): still open

Collaboration matters: discussed at the meeting of the IB
